THE RABBI QUARTER RAIDED

MOPES OF BIG PERCENTAGES RUINED BY HEALTH INSPECTORS.

Two Tons of Spoiled Merchandise Seized-Indiscreet Small Boys Assist the Raiders in Disposing of Some of the Fruit.

There was weeping and wailing and gnashing of teeth in the Hebrew quarter on the lower east side yesterday morning. The Philistines, in the guise of Health Inspectors. awooped down on the venders of decayed fruit and vegetables, and carried away two tons which they found exposed for sale on push carts and gutter stands. The raiders were Fruit Inspectors Bayard C. Fuller and W. G. Fox, Assistant Chemists Alfred L. Beebe

caron of the first wagon reached this place yesterday morning so many peddiers had fied in ainrm that there was a pretty good thorough fare. As seen as the inspectors began to condemn fruit small toys swarmed about the unfortunate peddiers and madegrabs for his wares. If the policemen were not near to drive the urchins away most of the fruit was stolen before it could be dumped into the offal wagon.

In one part of Division street the inspectors were kept so busy selzing fruit and vegetables.

In one part of Division street the inspectors were kept so busy selzing fruit and vegetables that they rurned over a push cart full of green peaches to two messenger boys, ordering them to wheel it as far as the wagon. The messenger boys disappeared and three minutes later the push cart was found upset, with fity or more youngsters in the near neighborhood munching green fruit. The alarm was given that a raid was in progress as soon as the inspectors began their work. For this reason much seizable merchandise along their route had been placed out of sight before they reached the more distant stands. One old woman wearing a brown wig pushed a eart full of lemons right among the inspectors.

BANKRUFT.

The was halted, and her goods were seized she was selling lemons two for a cent, and there was not one of the 300 she had that was not decayed or mildewed. She made a great fuss when her goods were dumped into the wagon, and had to be hustled away by the policemen. BANKRUPT.

wagon, and had to be hustled away by the policemen.

The greatest trouble of the inspectors was caused by the jostling of the crowd. The moment one of them stopped at a fruit stand and began to examine the fruit the people crowded around, four or five rows deep, howing and hooting, and boys wormed their way into the front row and began to steal.

An Italian was seen hurrying away from the invaders. His cart was full of apples, the odor of which was so strong that the vender himself held his hand to his nose. This attracted the policemen's attention, and two of them chased him. The race lasted half a block, during which two score of street Arabs ran after the pedder and pelted him with stolen fruit. The policemen also came in for a share of the politing. The Italian's stock went the way of the unrips and overripe. The inspectors went through Mulberry

The Hebrews are mock compared with the Italians who swear and call upon the bystanders to witness that they are being robbed of good fruit. While the row is going on the other peddiers on the block put their goods out of sight, so that when the inspectors come along they smile and say they are all sold out.

come along they smile and say they are all sold out.

The trip of the Health Department's wagon covered about a mile and hasted two and one-half hours. The condomned frait was taken to White & Son's deck at the first of West. Thirty-seventh street and dumped into scows, which are towed out to Barrien Island once a week. About 10,000 pounds of deemed anyles, pears, potatoes, bananas, crauses, all ples, emons, melons, tomatues, grapes, and fish are soized every week. Very little meat or poultry is ever condemned in the Hebrew religion to eat fresh meat. It is said that sometimes handsome carriages come down from the upper part of the elly and that the wealthy Hebrews do their meat marketing on the east side, as they are thus sure of getting their meat butchered and dressed according to their rites.

TAILOR THEISS TURNS DOCIOR,

And Victims of His Instrument of Torture Have Him Arrested. Justice Kilbreth in the Yorkville Court yesterday held August Theiss, 63 years old, of 115 West Sixty-second street, on charges of practising medicine without a diploma and without being registered. He also held Mrs.

Marie Witous, 33 years old, of 515 East Third street, on the same charge. Theiss is a tailor by trade. He was the Socialist candidate for Assembly in his district last fall. Shortly afterward he blossomed out as "the greatest physician of the world," as he termed himself in a printed circular setting forth his medical abilities. In the front window of his house in West Sixty-second street

ers, indicted for the election frauds of 1889, was disposed of yesterday. This Board was composed of Richard Whalen, James Connell. Thomas Rush, and Frank E. Herrick, election officers of the Fifteenth precinct of the Third district. As soon as the men came into the court room Prosecutor Winfield asked them if they desired to retract their pleas of not guilty and plead non rult. They said they did and and piean non run. They said they did and the prosecutor informed the Court that the plea was acceptable to the State. Judge Lippincott then ordered the men to be in court on Aug. Id for sentence. This makes twenty-one convicted officers now awaiting sentence, seventeen of whom will be sentenced on Aug. II. For the election frauds in Jorsey City in 1889, sixty-seven men, the election officers of seventeen precinets, were indicted. Two of this number, Cornelius Donlan and John Dennison, died before being called fortrial, and two others are yet untried. T. C. Smith and Louis Heller, Jr. Neither of them are likely to be tried, as Smith has already paid \$2,000 for forfeiting his bail, and Heller is lying at the point of death at the City Hospital. Twenty-one are now serving out their sentence at State prison, and twelve are in the penitentiary. Three of the sixty-seven were acquitted, and a nolle prosequi was entered in the case of three others. One managed to escape arrest after the indictment was found, and has not been heard of since. One was lined, and the last remaining one is still at literty, awaiting the decision of the Supreme Court on an appeal. the prosecutor informed the Court that the

Replies to questions asked every day by the quests and citizens of the American metropolis. Suggestions to sightseers and practical information for practical people. The Sun will publish, in time for use at the Columbus Celebration next October, a complete, unique, and practical guide book to this city. It will tell risitors what the sights are, how to reach them, where to lodge and board while have and the cast, where to do wholesale or relail shopping, how to amuse themselves, and is a handsome book, but it does not seem to get rest when weary of sightseeing. It will be attractively printed, pleasant to read, and the subject matter will be divided and arranged in a way to insure the best results. The retail price will be 25 cents per copy. The Sun's Guide will also offer unequalled and exceptional opportunities to advertisers. Those who wish further information on this subject should address The Guide Book De-

NEW BOOKS. Brief Reviews of Important and Interesting New Publications.

Nym Crinkle (Mr. Andrew C. Wheeler), the dramatic critic, has written a novel, "The Primroso Path of Dalliance," which is published by Lew Vanderpoole & Co. It is divided into three parts, one called Arcadia, one Bohe-mia, and one Utopia. The first pictures life in a village and tells the beginning of a love story. It is very charming work, filled with fine poetical fancy. The second part brings us to New York and introduces us to a company of men and women of the theatre. It is not so well done as the first part, but it has a particular interest. Its pictures are the work of a man who has had long and intimate acquaint-ance with the people and life described. Several

has no knowledge whatever of the unfortunate things she is talking about is, to be sure, a fact that in the crudity of this book Miss Shelden unconsciously recommends herself. It is reassuring to find that, having undertaken such a task, she has demonstrated her entire unfitness for it. Still, we have no idea that anybody ever suspected her of an ability to carry out a performance of this character, and so there was really no need at all of "Death to the Inquisitive," which could only have been called for in case it had been necessary to rehabilitate the author in the face of some unjust aspersion or belief. We trust that in her next novel we shall find the material taken from the parental home in the country, the decent urban boarding house or flat, the Coney Island boat, or any decorous and familiar source.

much better she will get along.
Another story which does not exhibit quite all the innocence of the foregoing, but which still plainly is the work of a person distinctly limited in his realistic powers, may be found by the curious student of ambitious and inadequate fiction in "Winsome and Wicked" (Donobue, Henneberry & Co., Chicago), This s a novel in which the male characters are dry goods clerks and the female characters all come to the most poignant grief. In that act lies perhaps its most notable characteristic, but it may be said further that it puts up such a New York boarding house as will as tonish the Superintendent of Police and anybody else who may think it worth while to read about it, and affords a number of German, French, and Latin quotations which are quite as astonishing as the boarding house. We have used the masculine pronoun in speaking of the author of this book. He calls himself Maude Meredith, but he cannot restrain the numerous evidences that he really belongs to the rude and occasionally logical

sex whose suspenders suspend something.

Mr. Gideon J. Tucker puts forth a book of ballads under the title of "Legends of the Notherlands to which are added Some Legends of Manhattan Island" (printed for the author by the Concord Cooperative Printing Company) They are not pretentious. There is evidence that the author cared more for the spirit of his story than for the sound and finish of his lines. The ballads relating to the Netherlands record for us incidents herois and curious, covering a period of 2,000 years. They tell of the Tectosages, of Civilis standing on the broken bridge, the legend of the cods and the hooks, of the sixteenth century deluge, of the Puritans at Leyden, of Torey at The Hague, and of twoscore deeds of valor and incidents of moment besides; and relating to Manhattan Island we have ballads telling of the one-man power in Nieuw Amsterdam, of how the Yankees traded to the Delaware, of New York's first doctor (whose name was Tucker), of why Eleventh street never got through from Fourth avenue to Broadway, and so on. They have two essentials of good ballad poetry; they deal with interesting themes, and they get simply and clearly to the point. Some of them, too, are marked by very skilful and effective epigram. "Vesty of the Basins," by Mrs. Sarah P. Mc-Lean Greene (Harper & Brothers), is the story of a girl conspicuous for her beauty and her virtues in a little Maine seaport. The girl works for the Church and the Sunday school. sits up at night with the sick, and is busy with all sorts of benevolences. The people among whom she dwells have curious ways, and talk in a remarkable dialect. It is surprising enough that anybody so estentatiously wicke as Capt. Phare of this story should be telerated in a plous Maine village. When Elder Skates inquires of the congregation at Sunday afternoon meeting. "How can we escape trouble?" Capt. DEEDS DATED BACK TOO FAR.

1891 Written on Them When the Blanks Were Not Printed Until 1892,

Mortimer M. Menken, a lawyer who has an office at 140 Nassau street and lives at 33 West Ninety-second street, was arrested yesterday morning by Detective Trainor on a bench warrant issued by Judge Martine. The Grand Jury had indicted him for making a false certificate, which is a misdemeanor

under section 163 of the Penal Code. Menken is a young bachelor and with his brother Percival was the owner of the tenement house at 210 West Sixty-second street. Catharine Cilnton, an elderly woman who had a room on the second floor of this building. tripped on the torn olicloth that covered the hall floor and fell against the well. Her daughter, Annie A. McMahon, engaged Pur-rington & Shannon of 63 Wall street to bring suit against Mortimer Menken for damages. When Parrington & Shannon received the case they wrote to Mr. Menken and asked him Mr. Menken called on June 27. Purrington & Shannon say that on June 30 three rington & Shannon say that on June 30 three deeds conveying the house at 210 West Sixty-second street were recorded in the Register's office. The deeds were dated Oct. 15, 1831. The first deed transferred the property from Mortimer and Percival Menken to their sister Cornelia. The second deed was a transfer from Cornelia to Isane Newton Lewis, and the third deed transferred the property from Lewis to Barney Dean.

The lawyers suspected that these transfers

third deed transferred the property from Lewis to Barney Denn.

The lawyers suspected that these transfers were made to avoid Mrs. Clinton's claim for damages. They were unable to find any such men as Isane Newton Lewis and Barney Dean. They say that the acknowledgment in each case signed by Menken as notary public and the signatures of Lewis and Dean appeared to be in the same handwriting. At the bottom of the printed form that was used in each case was the publisher's mark. Polhemus, 121 Fulton street. At 121 Fulton street it was said that these blanks, which purported to have been filled out and acknowledged on Oct. 15, 1891, had not been issued until April 15, 1892. Before that date the Polhemus blanks bore his old address, 102 Nassau street. With this evidence the case was presented to the Grand-Jury.

Judge Martine held Mortimer Menken in \$1,000 bail, which was furnished by Margaret T. Nadly of 640 Amsterdam avenue.

GONE TO REDEEM CUBA.

The Reported Sailing from This Country CHICAGO, Aug. 5.-Cuban patriots in the United States are about to strike a blow for Cuban independence, according to a morning paper. It is stated that word has been received by members of the Cuban Club in Chicago regarding the departure of a ship from a port near Key West about July 25. Its destination was the "Queen of the Antilles," and it was loaded down with well-drilled and fully equipped men, who are prepared to die for Cuban liberty. Abundant supplies, arms, and munitions were on board.

The utmost precautions were taken to prevent the expedition from exciting the attention of the authorities at Key West, in order that no notice should be given to the Spanish rulers of the island. On the afternoon of July 24 and the morning of July 25 a number of small parties left Tampa and Key West in small boats for fishing excursions. At the time no boats for fishing excursions. At the time no one noticed that the parties were made up of Cubans and Cuban sympathizers. The fact that there are so many Cubans in Tampa and Key West caused no suspicion of the real object of the fishing excursions.

The little bands had orders to meet at a point tweive miles from Key West, according to the letter received here. At this place there was to be a vessel in waiting for them with ample supplies and arms. The vessel was there and the men safely got aboard. The leader of the expedition is undoubtedly Gen. Charles Rolloff, who has been in Florida for more than two months.

charles Rolloff, who has been in Florida for more than two months.

Gen. Rolloff was in the United States of Colombia when he received the first intimation that there was a movement among Cubans in this country to aid the patriots of the island in throwing off the Spanish yoke, the speedily made his way to Tampa, and threw all his energies into the movement. For these reasons it is natural to suppose that Gen. Rolloff is the leader of the expedition.

It is known that there has been a move on foot among Chicago Cubans to engage in some foot among Chicago Cubans to engage in some such mysterious enterprise. The letter says that thousands of Cubans and Cuban smypa-thizers in Key West, Tampa, and other towns
